

Our Mission:

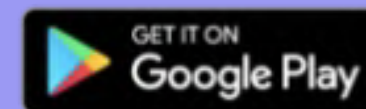

“To be the bridge that connects groups and businesses. We strive to give communities the tools to thrive through *our innovative and powerful fundraising platform.*”

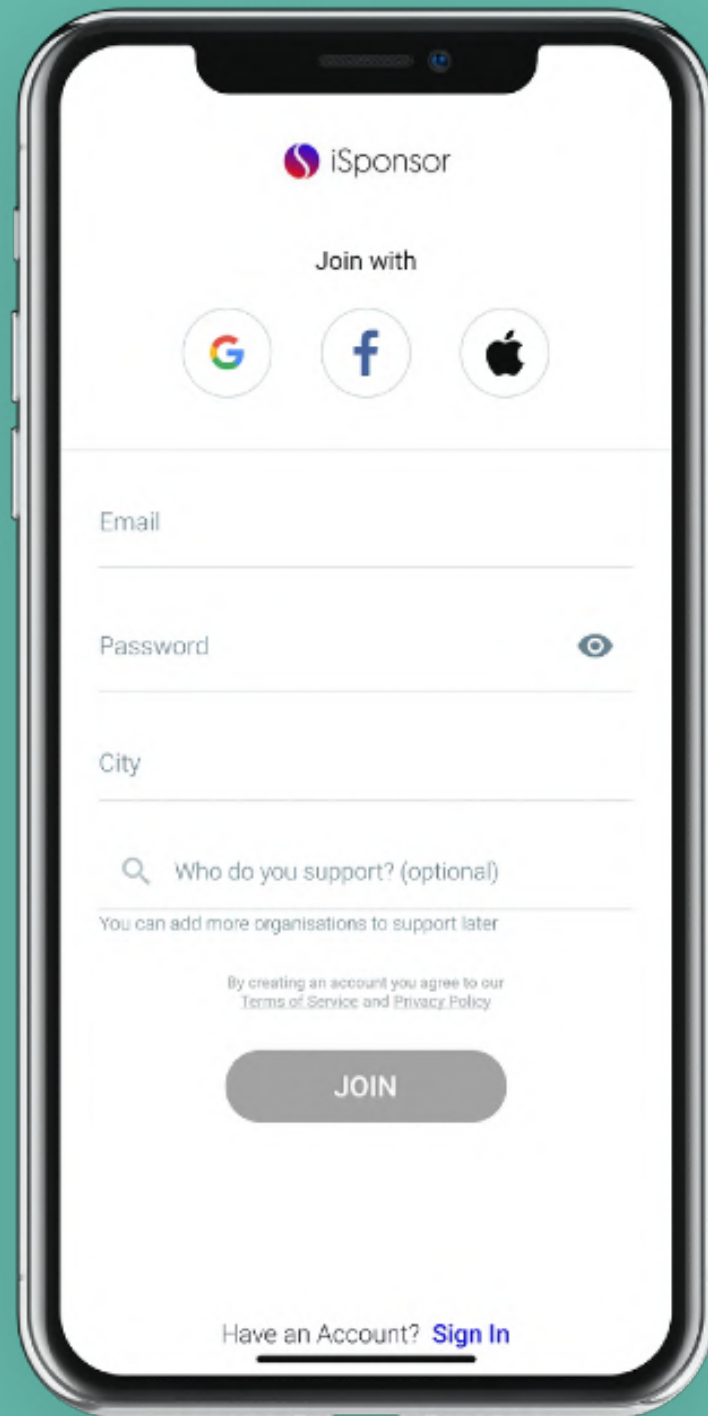

1. Download *the app*

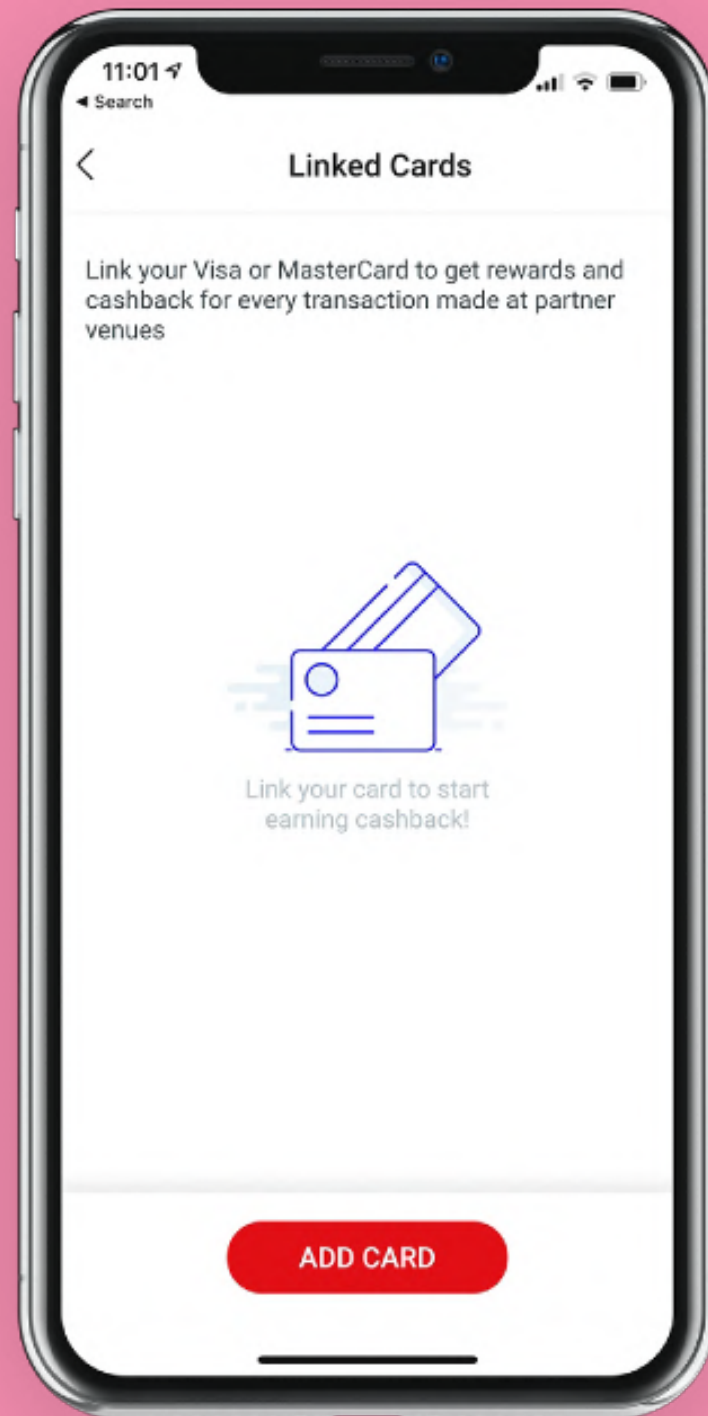

iSponsor is a FREE fundraising app that turns everyday spending into fundraising dollars. We've done the hard work for you; as an iSponsor group you can make the most of our strong business partnerships. We provide over 900+ brands at your fingertips ready to sponsor your group.

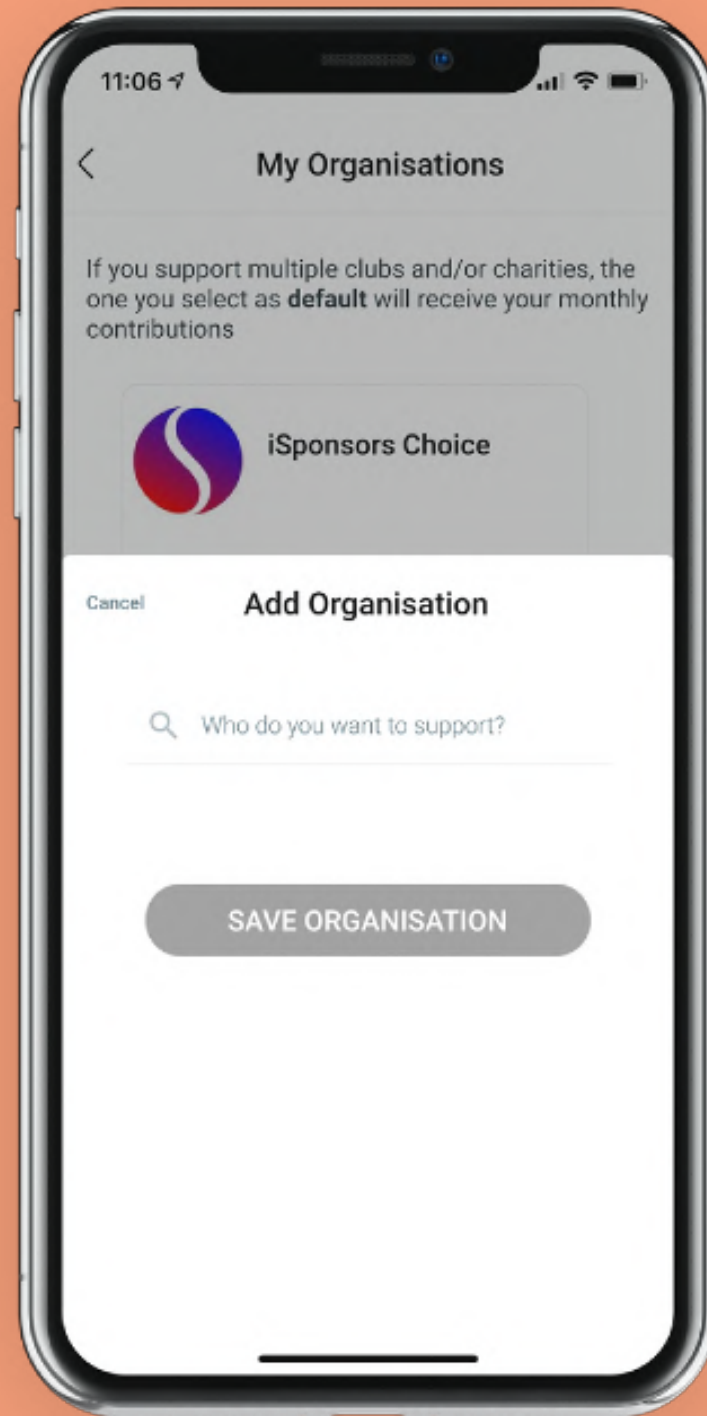

2. Create an account

Users register for an iSponsor supporters account. This is their key to the app and the iSponsor shopping platform. These users become part of your community and use their spending to support you.

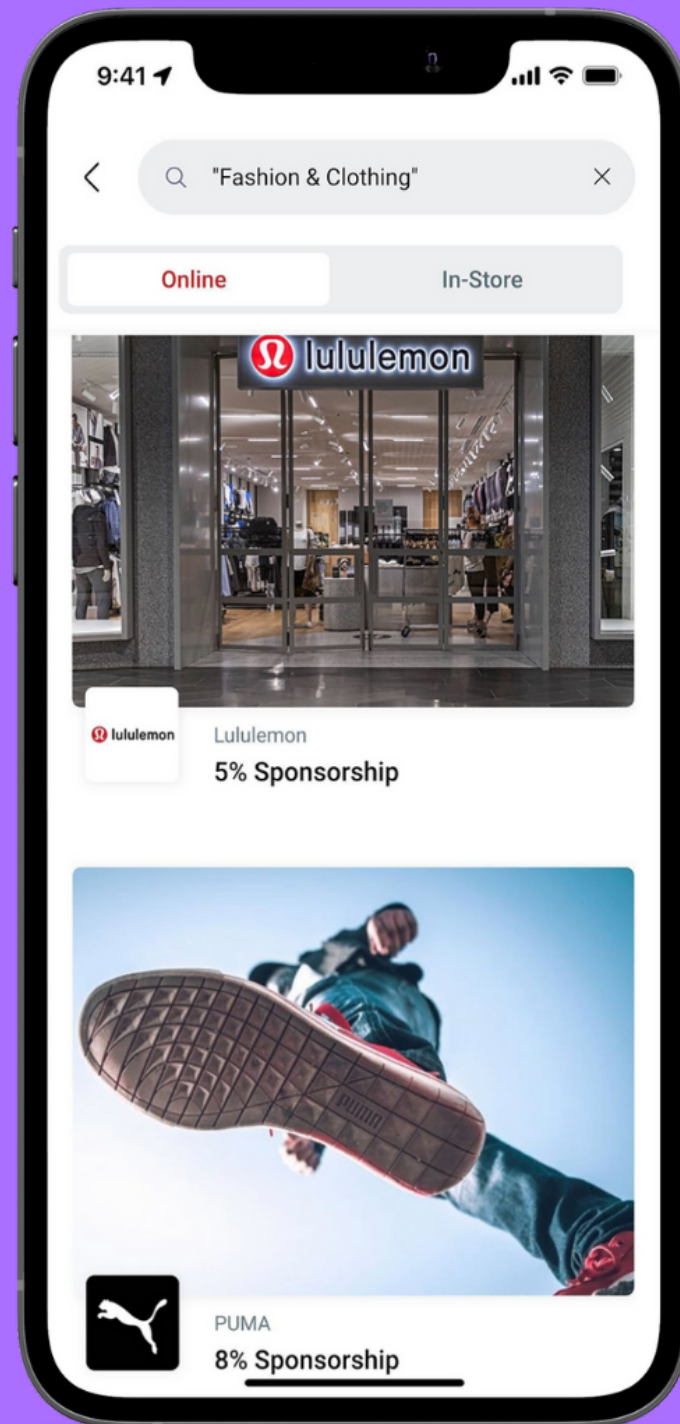

3. Register your *bank card*

We need to know our users card details so that when they shop using that card, the sponsorship funds come back to iSponsor's groups. Everything is very secure and safe.

4. Select who *you support*

Users can choose who their shopping supports with their spending going towards the fundraising totals for their active group. iSponsor is proud to support over 1000 groups in Australia, from small local sporting clubs to national charities.

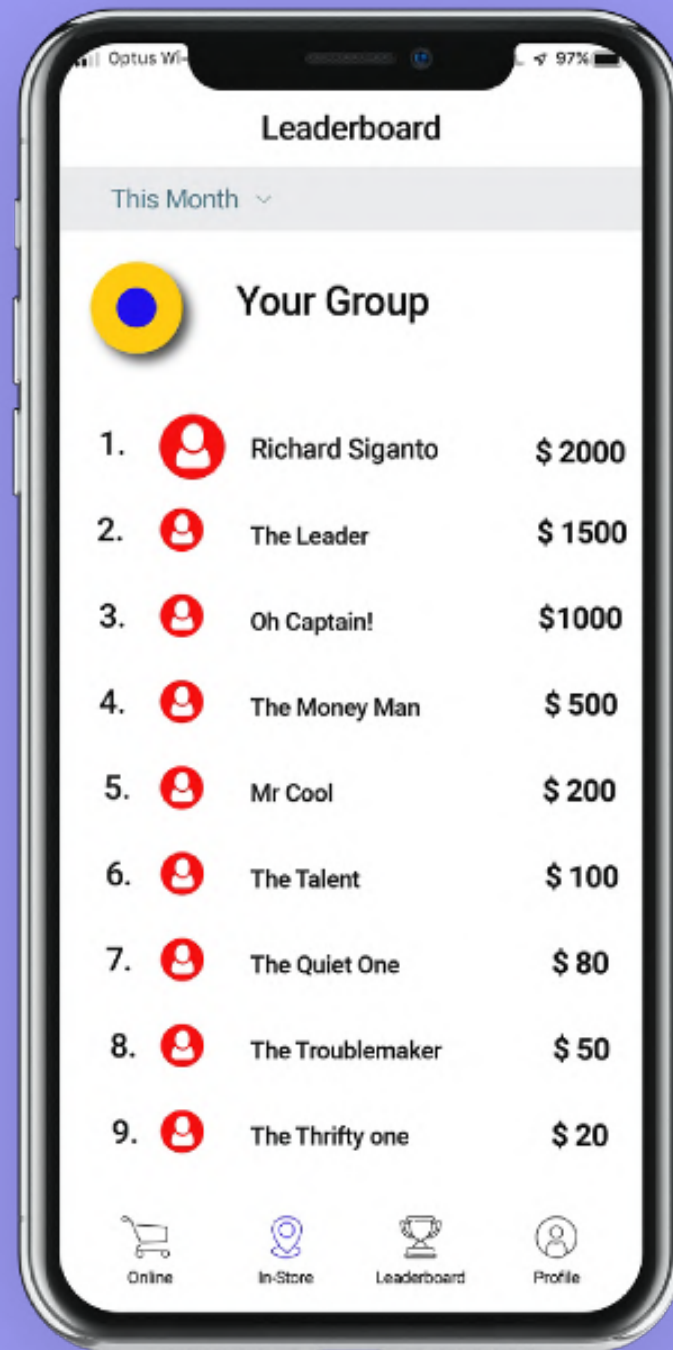

5. Shop online or in-store *with registered cards*

Users shop for everything on the app - from food, fashion to electronics. If it can be paid for with a bank card, it can be bought on iSponsor.

When a purchase is made online through the app, or in-store using a registered Visa or Mastercard, our groups will receive a percentage of the purchase.

This means more money for the groups and more customers for the business.

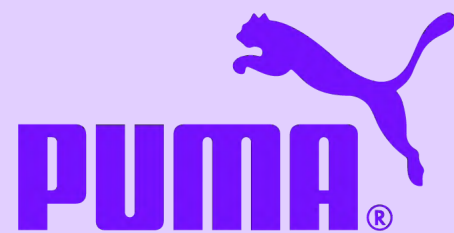

6. Money goes back to the *groups you support*

Shoppers can track the impact of their purchases, groups can follow along with their supporters fundraising efforts and businesses can see the return on their investment.
